SUMMARY

Results-driven and **adaptable** software developer with a strong **passion** for building scalable web applications and **learning** emerging technologies. Skilled in full-stack development, API integration, and **problem-solving**, with the ability to work **effectively** in team environments and deliver **user-focused** solutions. Possess strong **communication**, **leadership**, and **collaboration** skills with a commitment to continuous **growth** and innovation.

SKILLS

- **Programming Languages** — JavaScript, TypeScript, C, C++, Python, PHP
- **Frontend** — React.js, Tailwind CSS, HTML, CSS, Bootstrap, jQuery
- **Backend** — Node.js, Express.js, Laravel
- **Database** — MongoDB, MySQL, Mongoose
- **APIs & Integrations** — REST APIs, GraphQL, Swagger API, OpenAI API, Telegram Bot API, WhatsApp Bot Integration, Payment Integration
- **Tools & Platforms** — Git, GitHub, VS Code, Postman, Vite
- **Core Skills** — Full-Stack Development, Responsive Web Design, API Documentation, JWT Authentication, Object-Oriented Programming

EXPERIENCE

08/2025 – Present

Freelancer

MERN Developer

- **RideCloud:** Developed a **full-stack** carpooling platform using the **MERN** stack that enables users to post, search, and manage rides efficiently. **Designed** a responsive and user-friendly **frontend** interface using React.js and integrated secure **backend** APIs for authentication, ride management, and real-time data handling. Built an **admin dashboard** with CRUD functionalities, improving overall platform administration and control.

07/2021 – 07/2025

W3Dev private limited

Node Js Developer

- **Gamernation:** Developed secure REST APIs for an online gaming and esports platform. Improved user experience with smooth tournament and gameplay management.
- **InternBoard:** Developed backend APIs for an internship and training platform connecting students with Indian companies. Enhanced authentication and data management features.
- **WebForm:** Developed dynamic APIs for a customizable form-building platform with seamless form publishing and response management. Built and integrated APIs for **Telegram** and **WhatsApp bots** to enable automated form submissions and user interactions.

09/2020 – 05/2021

Freelancer

Node Js Developer

- Developed backend APIs for multiple projects to support application functionality and enhance user experience.
- Integrated RESTful APIs for seamless data exchange in applications.

EDUCATION

05/2022

Bachelor of Computer Science and Engineering Specialized in Cyber Security

Rashtriya Raksha University

- GPA: 8.34

05/2018

Senior Secondary Education (Class XII): PCM + Computer Science

Govt. High Secondary School Jagti

- Percentage: 73%

ACCOMPLISHMENTS

Member of the Google Developers Student Club.

Date: 2020-03-19

30 Days of Google cloud program

Date: 2020-10-01

HacktoberFest

Date: 2020-09-01

NPTEL Social Networks

Date: 2020-11-12

PROJECTS

03/2021

Attendance Management System

- By recognising faces, students can record their attendance. Here, students are required to sign up for each lecture. Python and PHP are used in its development.

11/2020

Groovy HD (Discord) Bot and Website

- Developed a multifunctional Discord bot using Python that supports music streaming, image conversion and filtering, quizzes, and various utility features. Also designed and developed a dedicated website showcasing the bot's features, commands, and detailed information.

02/2020

Weather app

- A Node JS project that allows users to search for weather by entering a specific place.
